of Western Washington

Health and Security Retirement Vacation Industry Fund

## 2014 ANNUAL FUNDING NOTICE For CARPENTERS RETIREMENT TRUST OF WESTERN WASHINGTON

### Introduction

This notice includes important information about the funding status of your multiemployer pension plan (the “Plan”). It also includes general information about the benefit payments guaranteed by the Pension Benefit Guaranty Corporation (“PBGC”), a federal insurance agency. All traditional pension plans (called “defined benefit pension plans”) must provide this notice every year regardless of their funding status. This notice does not mean that the Plan is terminating. It is provided for informational purposes and you are not required to respond in any way. This notice is required by federal law. This notice is for the Plan Year beginning January 1, 2014 and ending December 31, 2014 (“Plan Year”).

### How Well Funded Is Your Plan

The law requires the administrator of the Plan to tell you how well the Plan is funded, using a measure called the “funded percentage.” The Plan divides its assets by its liabilities on the Valuation Date for the Plan Year to get this percentage. In general, the higher the percentage, the better funded the plan. The Plan’s funded percentage for the Plan Year and each of the two preceding Plan Years is shown in the chart below. The chart also states the value of the Plan’s assets and liabilities for the same period.

The Plan’s Funded Percentage			
	2014	2013	2012
Valuation Date	January 1, 2014	January 1, 2013	January 1, 2012
Funded Percentage	82.9%	85.0%	86.1%
Value of Assets	\$1,343,118,109	\$1,302,242,573	\$1,275,511,068
Value of Liabilities	\$1,620,802,409	\$1,531,857,375	\$1,481,899,883

### Year-End Fair Market Value of Assets

The asset values in the chart above are measured as of the Valuation Date. They also are “actuarial values.” Actuarial values differ from market values in that they do not fluctuate daily based on changes in the stock market or other markets. Actuarial values smooth out those fluctuations and can allow for more predictable levels of future contributions. Despite the fluctuations, market values tend to show a clearer picture of a plan’s funded status at a given point in time. The asset values in the chart below are market values and are measured on the last day of the Plan Year. The chart also includes the year-end market value of the Plan’s assets for each of the two preceding Plan Years.

## 2014 ANNUAL FUNDING NOTICE

	December 31, 2014	December 31, 2013	December 31, 2012
Fair Market Value of Assets	\$1,325,570,134 <sup>1</sup>	\$1,284,523,885	\$1,153,549,714

### **Endangered, Critical, or Critical and Declining Status**

Under federal pension law, a plan generally is in “endangered” status if its funded percentage is less than 80 percent. A plan is in “critical” status if the funded percentage is less than 65 percent (other factors may also apply). A plan is in “critical and declining” status if it is in critical status and is projected to become insolvent (run out of money to pay benefits) within 15 years (or within 20 years if a special rule applies). If a pension plan enters endangered status, the trustees of the plan are required to adopt a funding improvement plan. Similarly, if a pension plan enters critical status or critical and declining status, the trustees of the plan are required to adopt a rehabilitation plan. Funding improvement and rehabilitation plans establish steps and benchmarks for pension plans to improve their funding status over a specified period of time. The plan sponsor of a plan in critical and declining status may apply for approval to amend the plan to reduce current and future payment obligations to participants and beneficiaries.

The Plan was not in endangered, critical, or critical and declining status in the Plan Year.

### **Participant Information**

The total number of participants and beneficiaries covered by the Plan on the valuation date was 17,955. Of this number, 7,051 were current employees, 6,792 were retired and receiving benefits, and 4,112 were retired or no longer working for the employer and have a right to future benefits.

### **Funding and Investment Policies**

Every pension plan must have a procedure to establish a funding policy for plan objectives. A funding policy relates to how much money is needed to pay promised benefits. The funding policy of the Plan is to confirm that the minimum funding requirements of ERISA are being satisfied and to determine that anticipated employer contributions will not exceed the amounts deductible under the Internal Revenue Code. Each employer makes contributions monthly pursuant to collective bargaining agreements.

Once money is contributed to the Plan, the money is invested by plan officials called fiduciaries, who make specific investments in accordance with the Plan’s investment policy. Generally speaking, an investment policy is a written statement that provides the fiduciaries who are responsible for plan investments with guidelines or general instructions concerning investment management decisions. The investment policy of the Plan is to provide a secure Trust Fund from which retirement benefits can be paid to employees, as prescribed in the Trusts, with a view to controlling the cost to the Plan consistent with prudent management. To meet these requirements, the Plan’s contributions to the Trust Fund will be invested with the objective of achieving a minimum annualized return (defined as income plus capital gains or losses) of the actuarial return assumption. The objectives shall be accomplished utilizing a strategy of domestic and international equities, domestic fixed income, real estate, private equity, absolute return and opportunistic investments in a mix that is conducive to participation in rising markets while allowing for protection in falling markets.

Under the Plan’s investment policy, the Plan’s assets were allocated among the following categories of investments, as of the end of the Plan Year. Note that this asset allocation is based on calculations of fair market value of assets as of December 31, 2014 which are preliminary and which are subject to change upon completion of the audited financial statements. These allocations are percentages of total assets:

<sup>1</sup> The December 31, 2014 fair market value of assets figure is an estimate based on the Plan Administrator’s unaudited financial statements. The final figure may differ from this estimate based on the Plan’s final audit issued for the plan year.

## 2014 ANNUAL FUNDING NOTICE

Asset Allocations	Percentage
1. Cash (interest bearing and non-interest bearing)	3.87%
2. US Government securities	2.99%
3. Corporate debt instruments (other than employer securities):	
Preferred	1.04%
All other	2.93%
4. Corporate stocks (other than employer securities):	
Preferred	0.07%
Common	38.11%
5. Partnership/joint venture interests	11.48%
6. Real estate (other than employer real property)	0.00%
7. Loans (other than to participants)	0.32%
8. Participant loans	0.00%
9. Value of interest in common/collective trusts	3.77%
10. Value of interest in pooled separate accounts	0.00%
11. Value of interest in 103-12 investment entities	0.00%
12. Value of interest in registered investment companies (e.g., mutual funds)	29.61%
13. Value of funds held in insurance co. general account (unallocated contracts)	0.00%
14. Employer-related investments:	
Employer securities	0.00%
Employer real property	0.00%
15. Buildings and other property used in plan operation	0.00%
16. Other	5.81%

For information about the Plan's investment in any of the following types of investments as described in the chart above – common/collective trusts, pooled separate accounts, master trust investment accounts, or 103-12 investment entities – please contact Randy Parker by phone at (206) 441-6514, or by mail at Carpenters Trusts of Western Washington, 2200 Sixth Avenue, Suite 300, Seattle, Washington 98121.

### **Right to Request a Copy of the Annual Report**

Pension plans must file annual reports with the US Department of Labor. The report is called the "Form 5500." These reports contain financial and other information. You may obtain an electronic copy of your Plan's annual report by going to [www.efast.dol.gov](http://www.efast.dol.gov) and using the search tool. Annual reports also are available from the US Department of Labor, Employee Benefits Security Administration's Public Disclosure Room at 200 Constitution Avenue NW, Room N-1513, Washington, DC 20210, or by calling (202) 693-8673. Or you may obtain a copy of the Plan's annual report by making a written request to the plan administrator. Annual reports do not contain personal information, such as the amount of your accrued benefit. You may contact your plan administrator if you want information about your accrued benefits. Your plan administrator is identified below under "Where to Get More Information."

### **Summary of Rules Governing Insolvent Plans**

Federal law has a number of special rules that apply to financially troubled multiemployer plans that become insolvent, either as ongoing plans or plans terminated by mass withdrawal.

## 2014 ANNUAL FUNDING NOTICE

The plan administrator is required by law to include a summary of these rules in the annual funding notice. A plan is insolvent for a plan year if its available financial resources are not sufficient to pay benefits when due for that plan year. An insolvent plan must reduce benefit payments to the highest level that can be paid from the plan's available resources. If such resources are not enough to pay benefits at the level specified by law (see Benefit Payments Guaranteed by the PBGC, below), the plan must apply to the PBGC for financial assistance. The PBGC will loan the plan the amount necessary to pay benefits at the guaranteed level. Reduced benefits may be restored if the plan's financial condition improves.

A plan that becomes insolvent must provide prompt notice of its status to participants and beneficiaries, contributing employers, labor unions representing participants, and the PBGC. In addition, participants and beneficiaries also must receive information regarding whether, and how, their benefits will be reduced or affected, including loss of a lump sum option.

### **Benefit Payments Guaranteed by the PBGC**

The maximum benefit that the PBGC guarantees is set by law. Only benefits that you have earned a right to receive and that cannot be forfeited (called vested benefits) are guaranteed. There are separate insurance programs with different benefit guarantees and other provisions for single-employer plans and multiemployer plans. Your Plan is covered by the PBGC's multiemployer program. Specifically, the PBGC guarantees a monthly benefit payment equal to 100 percent of the first \$11 of the Plan's monthly benefit accrual rate, plus 75 percent of the next \$33 of the accrual rate, times each year of credited service. The PBGC's maximum guarantee, therefore, is \$35.75 per month times a participant's years of credited service.

*Example 1:* If a participant with 10 years of credited service has an accrued monthly benefit of \$600, the accrual rate for purposes of determining the PBGC guarantee would be determined by dividing the monthly benefit by the participant's years of service ( $\$600/10$ ), which equals \$60. The guaranteed amount for a \$60 monthly accrual rate is equal to the sum of \$11 plus  $\$24.75$  ( $.75 \times \$33$ ), or \$35.75. Thus, the participant's guaranteed monthly benefit is \$357.50 ( $\$35.75 \times 10$ ).

*Example 2:* If the participant in Example 1 has an accrued monthly benefit of \$200, the accrual rate for purposes of determining the guarantee would be \$20 (or  $\$200/10$ ). The guaranteed amount for a \$20 monthly accrual rate is equal to the sum of \$11 plus  $\$6.75$  ( $.75 \times \$9$ ), or \$17.75. Thus, the participant's guaranteed monthly benefit would be \$177.50 ( $\$17.75 \times 10$ ).

The PBGC guarantees pension benefits payable at normal retirement age and some early retirement benefits. In addition, the PBGC guarantees qualified preretirement survivor benefits (which are preretirement death benefits payable to the surviving spouse of a participant who dies before starting to receive benefit payments). In calculating a person's monthly payment, the PBGC will disregard any benefit increases that were made under a plan within 60 months before the earlier of the plan's termination or insolvency (or benefits that were in effect for less than 60 months at the time of termination or insolvency). Similarly, the PBGC does not guarantee benefits above the normal retirement benefit, disability benefits not in pay status, or non-pension benefits, such as health insurance, life insurance, death benefits, vacation pay, or severance pay.

For additional information about the PBGC and the pension insurance program guarantees, go to the Multiemployer Page on the PBGC's website at [www.pbgc.gov/multiemployer](http://www.pbgc.gov/multiemployer). Please contact your employer or plan administrator for specific information about your pension plan or pension benefit. The PBGC does not have that information. See "Where to Get More Information" about your Plan, below.

### **Where to Get More Information**

For more information about this notice, you may contact Randy Parker by phone at (206) 441-6514, or by mail at Carpenters Trusts of Western Washington, 2200 Sixth Avenue, Suite 300, Seattle, Washington 98121. For identification purposes, the official plan number is 001 and the plan sponsor's name and employer identification number or "EIN" are: Board of Trustees of the Carpenters Retirement Trust of Western Washington, 91-6029051.
